1.	4FO105521	History	4	2+1+1	120
2.	4FO105621	National history	4	2+1+1	120

The study program in Pedagogy aims to create a profile for educators - professional collaborators who will be competent to engage in the creation, development, and implementation of educational activities in preschool institutions, primary and secondary schools, student dormitories, institutions in the field of social prevention and protection in the direction of education, prevention, and intervention in all aspects of children's lives (academic and socio-emotional), by the positive regulations in North Macedonia. The proposed concept of representation of general education, professional, theoretical-methodological, and applicative subjects in the study program ensures an integrated theoretical-practical approach that provides the opportunity to profile professional workers - educators competent to fulfill their roles as leaders, advisors, and researchers, as well as participants in the development of education in general.
